Subject: Decision on INS-D-14-1020R1

Dear Dr. Akram,

We have received the decision on your paper "A Novel Consumer-Centric Card Management Architecture and Potential Security Issues".

For your guidance, please find below the Editor's and the reviewers' comments:

%%
%%

EiC

References: order the entries alphabetically.

Reviewer #1: Changes address my concerns. I recommend that the paper is accepted.

%%
%%

In view of these comments, the Editor-in-Chief would be pleased to reconsider your paper after you have addressed the minor changes required.

When submitting your revised manuscript, please make sure that you upload the source files (e.g. Word or .TeX and other files in a .zip file which the system will automatically unzip). Uploading a PDF file at this stage will create delays should your manuscript be finally accepted for publication. If your revised submission does not include the source files, we will contact you to request them.

If you decide to revise your paper, please submit a list of changes when you submit the revised manuscript at <http://ees.elsevier.com/ins/>
Please select the "Author Login" button.

You will see a menu item call Submission Needing Revision. You will find your submission record there. Also, the reviewer(s) may have uploaded a file with detailed comments on your manuscript. Click on "View Reviewer Attachments" to access any detailed comments from the reviewer(s) that may have been included.

Again, when you upload your revised submission, please make sure that you have uploaded the source files, and not only the PDF.

Please note that this journal offers a new, free service called AudioSlides: brief, webcast-style presentations that are shown next to published articles on ScienceDirect (see also <http://www.elsevier.com/audioslides>). If your paper is accepted for publication, you will automatically receive an invitation to create an AudioSlides presentation.

The revised version of your submission is due by 03 Jan 2015.

Kind regards,

Witold Pedrycz
Editor-in-Chief
